# Introduction

*As a designer, I am most excited by exploring human needs and telling stories through materials. I love finding hidden human needs, using products to respond to small, everyday habits and events.*

A close-up photograph of a sailboat's mast and boom. The mast is a dark, curved pole that runs diagonally across the frame. The boom is a straight pole that extends from the mast towards the right. The background is a white sail with a repeating zigzag stitching pattern in a light brown or tan thread. The text "Make Sail" is centered over the image in a bold, black, sans-serif font.

**Make Sail**

# Destination: Lake Balaton

20.000 registered sailboats  
40.000 nm<sup>2</sup> sail waste yearly

“The sailing lifestyle in this country has not yet incorporated the knowledge that canvas that is no longer suitable for sailing can be reused, so many people simply throw it in the bin.”

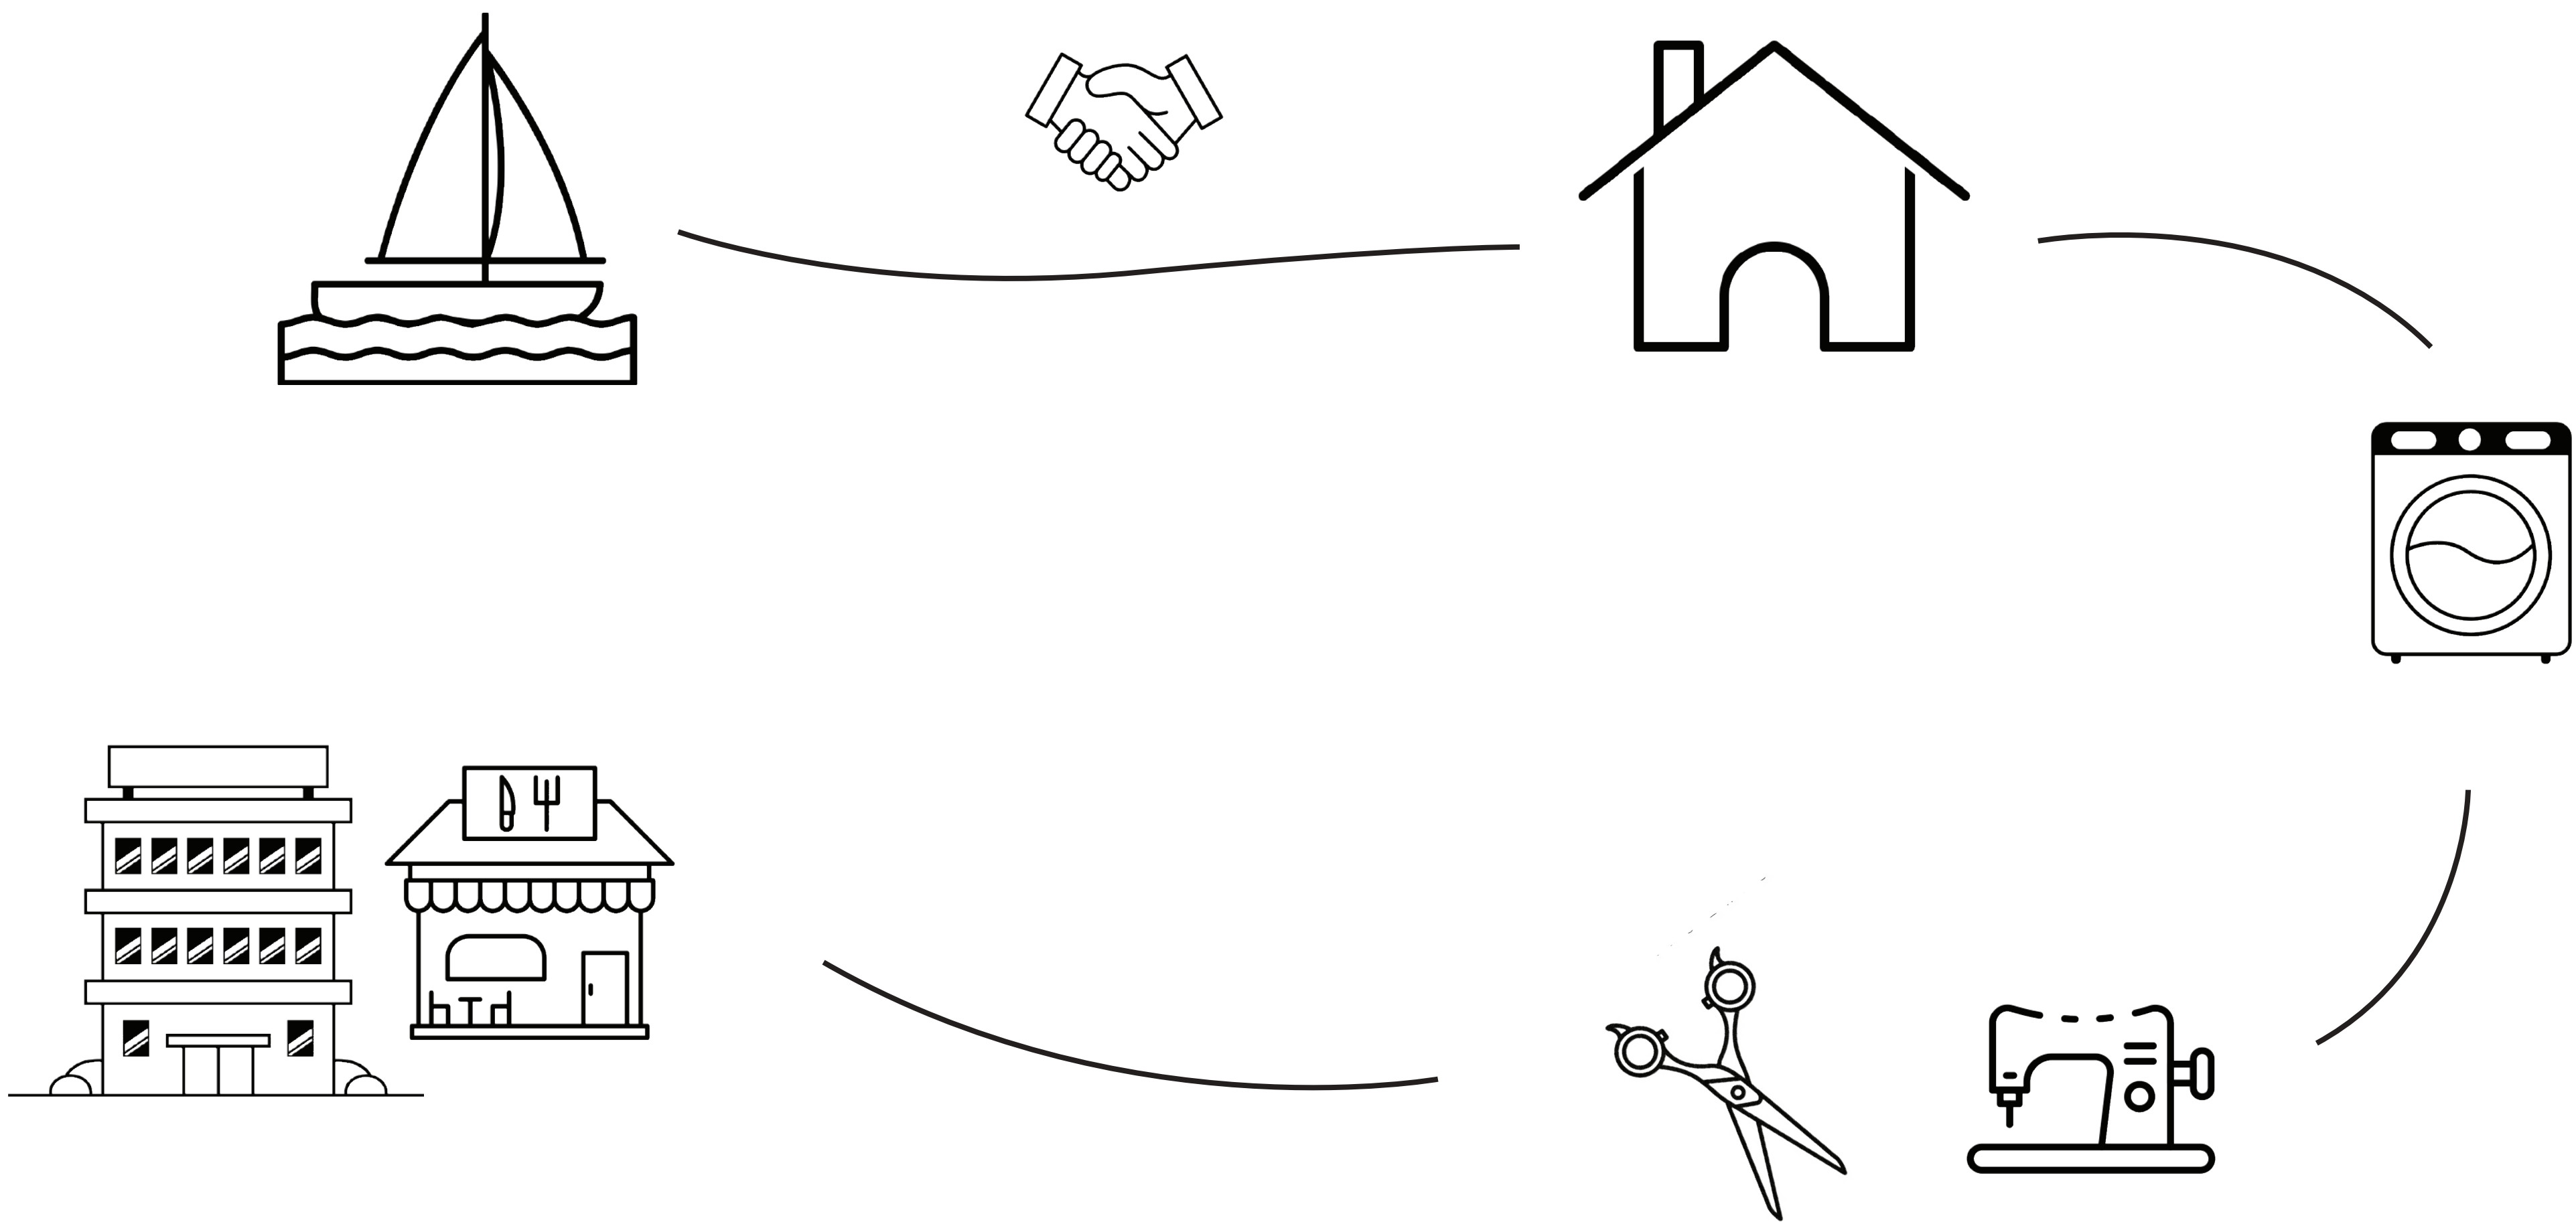

“I am not aware of an organised collection for second-hand sailors in this country”

“These sails end up in the trash, unless they sew something out of it”

“It is often presented in alternative ways the canvases”

# Collecting the material

# Material experiments: *What we can use the material for?*

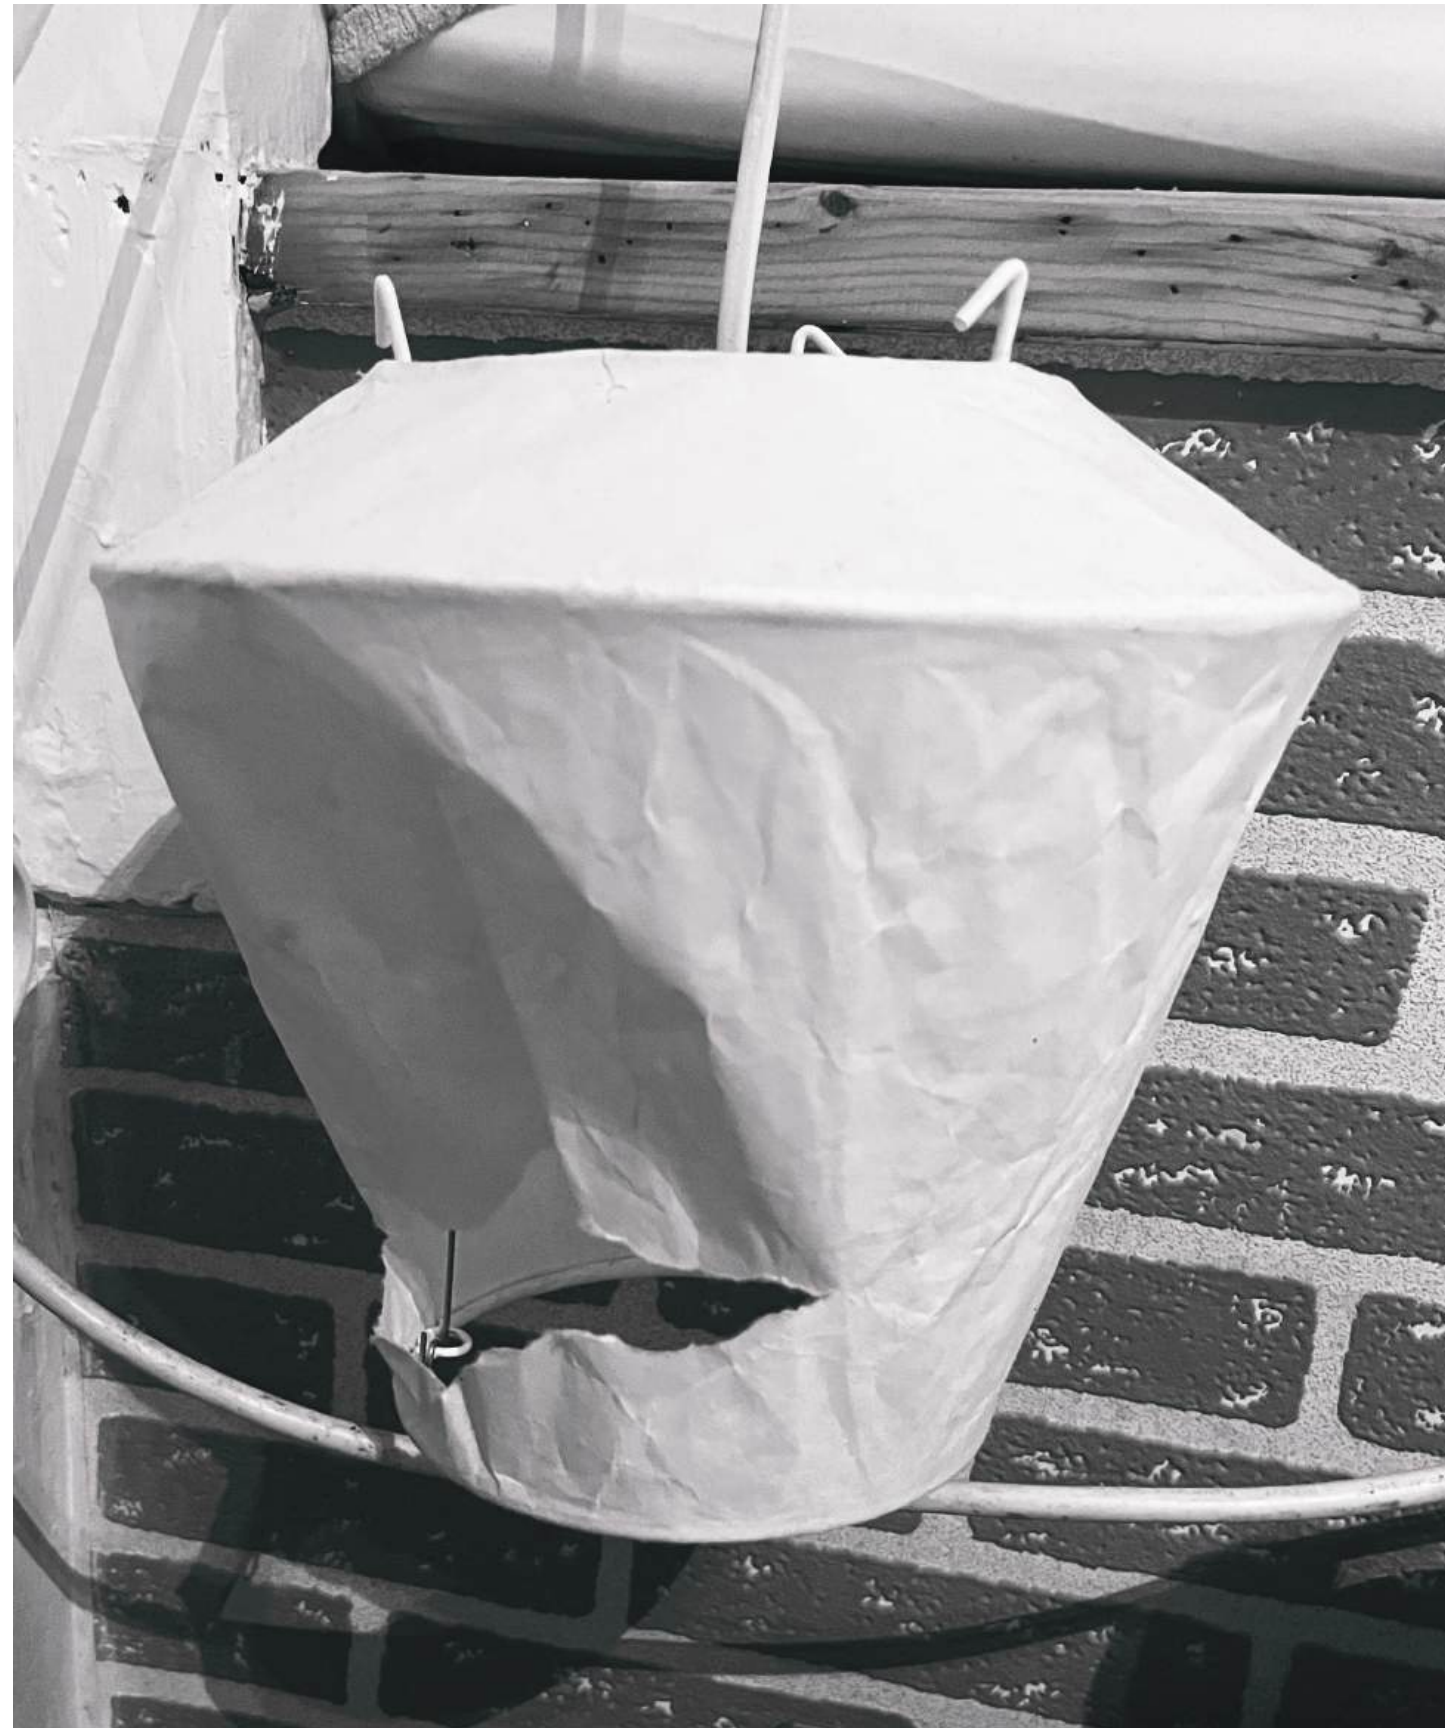

Woven polyester:

- Durable
- strong but lightweight
- durable
- washable
- washable - washable
- water-resistant
- quick drying
- can be painted
- foldable

# Lucky coincidence

my broken paperlamp

more durable sail lampshade

# Similarities of the two materials

paper

dacron sailcloth

# Experiments with lighting

# Destination: Public places on Balaton to reach more people

beargardens

restaurants / terraces

beaches
